

Riverside Athletic Club Amenities

The Athletic Club at Riverside Country Club was established to serve as an amenity to our members and their guests. Our goal is to provide services designed to benefit the health and wellness of those who participate within this facility. We offer an environment that makes fitness part of a fun, family lifestyle.

Our vision is an Athletic Club where all our members and their guests feel welcome and excited to engage in the activities we offer. We provide a clean and inviting atmosphere and offer the highest quality in equipment and instruction.

Massage Therapy in the Athletic Club is a great way to relax, unwind, and take care. Our massage therapists are specialized in traditional or injury-related body work. We encourage members and guests to make appointments 24 hours in advance but we also love to accommodate walk-ins when we can.

Our facility is staffed during regular business hours and available to help you with all your fitness needs. Come see us!

Our pool is open seven days a week from Memorial Day weekend through Labor Day weekend, if weather permits. We offer private and group swimming lessons as well as our own swim team.
